KASHISH SAINI

Full Stack Developer | Software Engineer

Gurugram, Haryana, India | +91-7505374260 | sainikashish415@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications and AI-driven solutions using React.js, FastAPI, and Python. Strong foundation in Data Structures & Algorithms, RESTful API design, and database management (SQL, MongoDB). Proven ability to reduce latency, optimize state management, and deliver production-ready features under tight timelines. Seeking a Software Engineer role to apply full-stack and AI integration expertise to solve real-world engineering problems.

TECHNICAL SKILLS

Languages: Python, Java (Core), JavaScript (ES6+), C, C++

Core CS: Data Structures & Algorithms (DSA), Object-Oriented Programming, Problem Solving

Frontend: React.js, Redux Toolkit, HTML5, CSS3, Responsive Design

Backend: FastAPI, Django, Node.js, RESTful APIs

Databases: MySQL, SQLite, MongoDB, SQLAlchemy (ORM), Airtable

AI / ML: Groq Cloud API (Llama 3.3), LiteLLM, Strands Agents, Gemini AI API, Prompt Engineering

Tools & DevOps: Git, GitHub, VS Code, Kiro IDE, Twilio Integration, REST API Testing

Soft Skills: Team Collaboration, Analytical Thinking, Communication, Leadership

PROJECTS

StudyMate AI — Smart Student Assistant

GitHub | Live Demo

Python, FastAPI, Strands Agents, Groq API (Llama 3.3 70B), LiteLLM, PyPDF2, HTML/CSS/JavaScript

- Developed an AI-powered student assistant using FastAPI and Groq (Llama 3.3), supporting native Hinglish chat, multi-format document parsing (PDF, DOCX, images), and live camera-capture context — reducing manual study-material lookup time by an estimated 40%.
- Engineered an asynchronous processing pipeline with LiteLLM and Strands Agents, resolving token-layout and multi-format extraction bottlenecks and cutting average response latency by ~30%.
- Built and iterated the application end-to-end in Kiro IDE, integrating prompt-engineering best practices to improve answer relevance and reduce hallucination rate.

HCP Interaction AI CRM — Pharma Automation Tool

GitHub | Live Demo

Python, FastAPI, React.js, Redux Toolkit, Groq Cloud API, SQLAlchemy, SQLite

- Built a pharma-specific CRM automation tool using FastAPI and React.js to parse raw healthcare-provider (HCP) meeting logs into structured medical fields with automated sentiment analysis, cutting manual data-entry time by roughly 50%.
- Designed instant Redux Toolkit state synchronization for high-frequency JSON payload streams, eliminating UI re-rendering lag and improving perceived load performance by ~35% under high-frequency clinical log updates.
- Implemented RESTful APIs backed by SQLAlchemy ORM and SQLite for reliable, structured storage of parsed clinical interaction data.

TRAINING & CERTIFICATIONS

React.js Trainee — XTRUDE Engineers Pvt. Ltd. *Aug 2025 – Sept 2025*

- Built scalable, responsive web applications using React.js and component-based architecture during intensive hands-on training.

Web Designing Trainee — XTRUDE Engineers Pvt. Ltd. *Sept 2024 – Oct 2024*

- Completed training in web designing with a focus on HTML, CSS, and responsive layout development for cross-device compatibility.

Java Core Trainee — XTRUDE Engineers Pvt. Ltd. *Sep 2023*

- Built a Scientific Calculator in Java supporting 30+ mathematical operations; applied OOP concepts, exception handling, debugging, and modular programming.

EDUCATION

Bachelor of Technology in Computer Science & Engineering *2022 – 2026*
RV Institute of Technology, Bijnor (AKTU) | CGPA: 8.10 / 10
